

## Chapter 2 Practice Test 2

Name \_\_\_\_\_

Show your work on a separate piece of paper.

Put your answer in the blank to the left of the equation.

\_\_\_\_\_ 1.  $n + 2 = -20$

\_\_\_\_\_ 2.  $n - 2 = -15$

\_\_\_\_\_ 3.  $10n = 20$

\_\_\_\_\_ 4.  $\frac{n}{5} = -2$

\_\_\_\_\_ 5.  $2n + 1 = 11$

\_\_\_\_\_ 6.  $3n - 2 = 22$

\_\_\_\_\_ 7.  $4n + 1 = 3n + 10$

\_\_\_\_\_ 8.  $3n - 1 = 2n + 19$

\_\_\_\_\_ 9.  $10n + 6 = 8n + 14$

\_\_\_\_\_ 10.  $11n - 10 = 8n + 11$

\_\_\_\_\_ 11.  $4n - 20 = n - 8$

\_\_\_\_\_ 12.  $3(8n + 11) = 3(5n + 8)$

\_\_\_\_\_ 13.  $2(5n - 1) = 3n + 5$

\_\_\_\_\_ 14.  $8n + 5 + 2 + 3 = 2n + 2n + 2n + 30$

\_\_\_\_\_ 15.  $3n + 4n - 1 - 1 = n + 2n + 4 + 2$

\_\_\_\_\_ 16.  $n + n + n + n + 11 + n + 4 = 2n + n + 10 - 5$

\_\_\_\_\_ 17.  $5n + n + n = 10 + 14 + 4$

\_\_\_\_\_ 18.  $2(5n - 1) - 2n - 2n = 2(2n + 3) + 14$
