

# Cross Out Puzzle

## HOW TO DO THE PUZZLE

In this puzzle, a common sentence is written, but extra letters are put between many of the letters. You must search for words within the sentence to help you figure out the common sentence. Letters are not moved around, for everything is in correct order; it is just the extra letters that make the sentence hard to see.

Example: Cross out 8 letters below to form a three word sentence.

**AYOTUVATREOULOTVSED**

Crossing out the chosen 8 letters below gives you

**AYOTUVATREOULOTVSED**

When you take out the crossed out letters, you get the sentence
