

WEIGHT GUESSING

Bob, Chad, David, and Eddie tried to guess the weight of my desk. Bob guessed 59 pounds, Chad guessed 121 pounds, David guessed 94 pounds, and Eddie guessed 147 pounds. All of the guesses were wrong. The guesses, in no particular order, were off by 40, 13, 14, and 48. From these clues, what must be the weight of my desk?

Desk's weight is _____.
