MISSING VALUES

Find the numbers that make the following equation true given the facts about each:

$a + b + c + d + e = 59$

a is 5 times the value of b.
b is 10 less than d.
d is 8 times the value of c
e is 1 less than b and 3 more than c.

a = _____   b = _____   c = _____   d = _____   e = _____
