

	A	B	C	D	E
1	<b>Worksheet 5</b>				
2	Item	Price	Price with 6% Tax		
3	Butter	\$4.50			
4	Ginger Ale	\$3.50			
5	Bread	\$2.50			
6	Tortillas	\$3.20			
7	Peanut Butter	\$5.20			
8	Twix Bar	\$0.95			
9	Lucky Charms	\$3.40			
10	Flour	\$2.30			
11	Sugar	\$3.30			
12	Milk	\$2.80			
13					
14	1. Sort the data by <b>PRICE</b> . Make sure you keep the data accurate.				
15					
16	2. Fill in the highlighted cells with the correct formula. To determine the price with tax, you will need to multiply the price by 106%. You will have to figure out what that means to multiply by.				
17					
18	3. Use a <b>FILL DOWN</b> to complete the formula in cells B3-B11 instead of constantly typing a new formula.
